AMBEVILENCE

10" EP 2015

Tracklist:

Metamorphic Evil 6:36
Sigil Of The Perverse 9:31

Finally the AMBEVILENCE „s/t“ EP will be released by Sepulchral Voice Records on proper format. Abyssic, boundless & unique Metal of the blackest Death in form of two abundant compositions.

Originally the band released both trax in a different/shortened version in 2014 on a strictly limited tape edition by HTC that was sold out in a few days.

This time both songs are expanded by ingenious ambientlike intro- and outroduction themes which were not included on the first publication. So, now the tracks are complete in themselves and on the ultimate level of perfection. This is the final and intended version of both spells in its utter entirety.

From hammering staccato drumming and swirling riffs to slow droning dissonances each track creates its own magick. Let loose when listening to them and the songs will speak to you in a language of desperation, foreboding & certainty.

Call it -cosmic horror-, call it -soundtrack to the ultimate void- or simply call it -deathlike silence-.

The release appears as noble 10" LP on black vinyl. Additionally a CD version of both tracks is included.

Everything is packed in a specially printed & structured cardboard fold out cover.

Suns to ashes and stars to dust!
