REVEAL, Uppsala's masters of terrifying insanity finally are back.

Back to kill decency, to raise middlefingers and to burn bridges.

Say goodbye to terms like „consensus“ and „conformity“ and expect the unexpected instead.

Neither fish but foul, `Flystrips` comes like a schizo siamese twin between old THORNS and THE GERMS. While their outstanding, debutalbum `Nocturne Eyes and Teeth` stirred the scene with a grand black death chaos which however followed certain rules and stylistic apprehension,

`Flystrips` now chokes every understanding of how this music should sound like and how it should be played.

REVEAL step on unique paths and will leave traces. Related to bands like NO FUTURE, IN SOLITUDE and GRAVMASKIN, their visions appear bizzare, grotesque & sardonic.

A brilliant authentic performance combined with a great sound & production brings back the focus on the essence of straight and pure Rock Musick.

`Flystrips` is reduced to a maximum and free of ballast and show off. To sum it up:

`Flystrips` will let you cook your favourite smack with a wooden spoon,

and will help you injecting it into your moms left temple.

What are genres? **REVEAL** doesn't know, and neither should you.

Recorded with *Tommie Eriksson (Saturnalia Temple)* / Mixed by *Spine* / Mastered by *Coste Apetrea*
Artwork and Layout by *Crack* / *Pelle Åhmann* / *Erik Danielsson*
